

ABOUT ME

I have always curiosity for new learning things and new technology in a better and easy way. Aspiring front-end developer with a strong passion for creating interactive and user-friendly web applications. Proficient in HTML, CSS, and JavaScript, with hands-on experience developing Digital Immunity Drive & Typing Speed Test projects to showcase design and functionality skills. Motivated to learn and grow in a fast-paced development environment.

- **Access Point Deployment:** Enhanced wireless network coverage and accessibility.
- **CCTV Installation:** Implemented and maintained surveillance systems for security purposes.

PROJECTS

Typing Speed Test

Technologies Used: HTML, CSS, JavaScript

- Developed a user-friendly platform to enhance typing skills through interactive and customizable tests.
- Integrated multilingual support (English/Hindi) and adjustable test durations (30s/60s).

To-Do List Web App

Technologies Used: HTML, CSS, JavaScript

- Created a simple and easy-to-use to-do list to manage daily tasks. Users can add, edit, delete tasks.
- Used localStorage to save tasks even after refreshing the page.
